---

## Summary

I am an enthusiastic computer science student with extensive knowledge in HTML, CSS, Bootstrap, Python, and MySQL. My eagerness to learn new programming languages and technologies will aid in the development of my abilities as a web developer. I have completed successful projects during my academic career, demonstrating technical expertise, creativity, and analytical problems-solving skills. I am seeking a challenging role in web development where I can apply my skills and knowledge to create practical and approachable digital solutions that can progress society.

---

## Skills

- Proficiency in HTML, CSS, Bootstrap, JavaScript(Basic), Python, and MySQL.
  - Ability to write clean, maintainable, and well-documented code.
  - Familiarity with frontend performance optimization methodologies.
  - Comfortable working in a fast-paced, collaborative environment.
  - Strong analytical problem-solving and critical thinking skills.
- 

## Web Development Project

- **Website 1:**

**Link:** <https://gopalvishwakarma.github.io/modern-website/>

**Description:** I created a responsive website with multiple elements and a modern style using HTML, CSS, and JavaScript. This website pertains information regarding networking and It's mobile-friendly and has assisted me in improving my front-end development skills.

- **Website 2:**

**Link:** <https://gopalvishwakarma.github.io/testing/>

**Description:** I built a travel website with HTML, CSS, and JavaScript. It shows locations and shipments in a simple interface. The site has been adapted for mobile devices, making it more accessible. This project assisted me in honing my front-end development skills.

- **Website 3:**

**Link:** <https://gopalvishwakarma.github.io/portfolio/>

**Description:** I have created a portfolio showcasing my web design and development skills. Using HTML, CSS, and JavaScript, I have presented work experiences, and educational achievements.
